

The World's smallest multimeter, oscilloscope and logger.

The ultimate tool for makers and electronic enthusiasts.

Spectrum analyzer

- ✓ Pinch drag and zoom, add cursors, measure deltas
- ✓ Set triggers to: auto, rising or falling edge
- ✓ Save and export measurements to csv file
- ✓ Spectrum analysis

Logger Mode

DC coupling

AC coupling

DC Current Signals

AC Current Signals

Temperature logging

- ✓ Standalone logger
- ✓ Pinch drag and zoom, add, cursors, measure deltas
- ✓ Save and export measurements to csv file

The most portable and versatile tool in the market

Electrical Specs

PARAMETER	VALUE
• DC Voltage Measurement	10mV to 60V DC \pm 1%
• AC Voltage Measurement	10mV to 42V AC \pm 1%
• DC Current Measurement	1mA to 2A DC \pm 1%
• AC Current Measurement	1mA to 2A AC \pm 1%
• Resistance Measurement	1 to 1M Ohm \pm 5%
• Ambient Temp. Measurement	0 to 60° C, \pm 1°C, 32 to 140 F
• Continuity	<5 ohms
• Diode Check	<1.5V
• Sampling Resolution	12-bit
• Sampling Rate	1Msample/s
• Acquisition Window	10ms to 10s
• Logging Rate	1s to 1 day
• Logging Duration	1 year (at 6 hours / sample)
• Bluetooth Range	0 to 10 meters
• Operating Temp.	0 to 60° C, 32 to 140° F
• Battery Type	Lithium CR2032
• Battery Life	~ 6 Months
• Compliance	RCM, FCC, CE

Mechanical Specs

Cable Lengths: 220mm each

What's in the box

Carry pouch

pokitMeter

CR2032 Lithium
battery

2 x custom 2A fuses

Wire grip clips

The Accessory Kit

5 x custom 2A fuses
with fuse covers

Wire grip clips
