Cable Length	3.3ft (1m)

## INTRODUCTION

### • About Arducam

Arducam has been a professional designer and manufacturer of SPI, MIPI, DVP and USB cameras since 2012. We also offer customized turnkey design and manufacturing solution services for customers who want their products to be unique.

### • About this USB Camera

The B0196 is a new member of the Arducam's USB camera family. It's an 8MP, UVC compliant, USB 2.0 camera. This USB camera is based on 1/4" Sony IMX219 image sensor, and you can learn more about its specs in the next chapter. Arducam also provides the sample application that demonstrates some features of this camera.

### • About UVC

The B0196 is a UVC-compliant camera. The native UVC drivers of Windows, Linux and Mac shall be compatible with this camera so that it does not require extra drivers to be installed.

### • About Customer Service

If you need our help or want to customize other models of USB cameras, feel free to contact us at support@arducam.com

## QUICK START

### • How to download the program

Download the APP Amcap from the following link <https://www.arducam.com/downloads/app/AMCap.exe>

#### NOTE:

1. If used with the Android device, USB Camera APP and connect adapter are needed.
2. For Mac OS, please open the native software facetime and select the video camera "USB Camera".

### • How to connect the camera

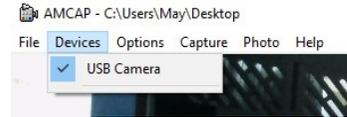

Connect the one end of the USB 2.0 cable to the USB 2.0 connector provided on the back of B0196, and connect the other end to the USB 2.0 host controller on the computer.
