USB Low Light Wide Angle Camera With Case

2MP Sony IMX291 (SKU: UB020201)

QUICK START GUIDE

INTRODUCTION

• About Arducam

Arducam has been a professional designer and manufacturer of SPI, MIPI, DVP and USB cameras since 2012. We also offer customized turnkey design and manufacturing solution services for customers who want their products to be unique.

• About this USB Camera

The UB020201 is a new member of the Arducam's USB camera family. It's a 2MP, UVC compliant, wide angle, low light USB 2.0 camera with metal case. This USB camera is based on the 1/2.8" Sony IMX291 image sensor, and you can read more specs in the next chapter. Arducam also provides the sample application that demonstrates some of the features of this camera.

• About UVC

The UB020201 is a UVC-compliant camera. The native UVC drivers of Windows, Linux and Mac shall be compatible with this camera so that it does not require extra drivers to be installed.

• About Customer Service

If you need our help or want to customize other models of USB cameras, feel free to contact us at support@arducam.com

QUICK START

• How to download the program Download the APP Amcap from the following link https://www.arducam.com/downloads/app/ AMCap.exe

NOTE:

- 1. For Mac OS, please open the native software facetime and select the video camera "USB Camera" .
- 2. Android compatibility, contact us for support. If used with the Andriod device, USB Camera APP and connect adapter are needed.
- 3. Please feel free to contact us if you need H264 software.
- How to connect the camera Connect the one end of the USB 2.0 cable to the USB 2.0 connector provided on the back of UB020201, and connect the other end to the USB 2.0 host controller on the computer.

How to use the program (Windows demo only)

The Menu bar at the top of the shown image contains few menu items and the current preview resolution and the frame rate are displayed on the bottom bar when the application is running. The following sections describe each of the menu items

Menu>Devices

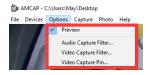

This menu will show the available video devices to host PC. The UB020201 named "USB Camera". This camera support capturing audio, so the menu shows the "USB 2.0".
